RETAIL PRICE LIST OF BOTANICALS

1959

This is a general listing of plants that we usually have on hand throughout the year.

Many times during the year we receive other varieties, if you are on our mailing list you will receive these specials.

In the past we have never sent our specials to anyone except customers that have purchased plants from us, but if you have never bought from us and still want to be notified of any specials please just drop us a post card asking to be on our mailing list.

We have a Catalog with 29 actual photos of orchid plants that we sell all the time. We keep adding photographs to it all the time as we are able to get them. We charge \$1.00 and give you a refund on your first purchase of \$5.00 or more. It has complete planting and growing instructions, as well as the address where you can purchase Orchid supplies.

We can not insure plants sent by Parcel Post so it is best to let us ship by express and you pay the transportation charges when they arrive. NO C. O. D. ORDERS PLEASE.

If you order \$5.00 worth of plants from this list just ask for Catalog Free

Each plant will be labeled with correct name.

You would do us a great favor when ordering if you would **give us a second choice** as we may be out of a variety for a while. If not, we will ship what we have on hand and ship the balance as soon as we receive it. This is not usual, we try to keep them all in stock all the time. But your order would not be held up at all if we have a second choice.

The plants listed here are from the small dainty fragrant spray types to the large purple and white that you see for sale in flower stores.

Laredo is a port of entry, and we always have fresh plants. Our prices are far below the average.

Notice

We do not recommend Odontoglossums of any kind, Cattleya Citrina or Laelia Grandiflora sometimes called Laelia Majalis to SOUTHERN CLIMATES.

We guarantee all our plants but we will not replace any of these varieties for customers that live in a Southern locality.

The following plants are priced Bare Root, all mature plants, labeled with correct name, ready to pot as you like to grow them.

Laelias

Laelia Superbiens (large)	6.50

Cattleya Citrina - Lemon yellow and very fragrant, the tulip Orchid. should be planted with bulbs down	3.50

We have Cattleya Hybrids but we do not always have the same kind on hand therefore we can not list them by name.

They are all Blooming size and taken from 5 or 6 in. pots. We have to remove them from the pots for they are planted in fir bark and would not ship well.

We have a contract with a Calif. firm that we get them from just for the convenience of our customers that especially like CATTLEYA HYBRIDS. We do not grow them for the weather is to hot here in Laredo.

We can give you several Varieties, Purple, Light purple, Orchid with white lip and very often we are able to get yellow.

\$ 5.00 each

Special 4 for \$ 15.00

No discount on yellows.
